Fifty Years in the Karen Revolution in Burma is about commitment to an ideal, individual survival and the universality of the human experience. A memoir of two tenacious souls, it sheds light on why Burma/Myanmar's decades-long pursuit for a peaceful and democratic future has been elusive. Simply put, the aspirations of Burma's ethnic nationalities for self-determination within a genuine federal union runs counter to the idea of a unitary state orchestrated and run by the

dominant majority Burmans, or Bamar. This seemingly intractable dilemma of opposing visions for Burma is personified in the story of Saw Ralph and Naw Sheera, two prominent ethnic Karen leaders who lived—and eventually left—"the Longest War," leaving the reader with insights on the cultural, social, and political challenges facing other non-Burman ethnic nationalities. Fifty Years in the Karen Revolution in Burma is also about the ordinariness and universality of the challenges increasingly faced by diaspora communities around the world today. Saw Ralph and Naw Sheera's day to day lives—how they fell in love, married, had children—while trying to survive in a precarious war zone—and how they had to adapt to their new lives as refugees and

immigrants in Australia will resound with many.

The Karen conflict is an armed conflict in Kayin State, Myanmar. The conflict has been described as one of the world's "longest running civil wars". Karen nationalists have been fighting for an independent state known as Kawthoolei since 1949. Karen Conflict Index Chapter 1: Story of Conflict 1.1 Karen people 1.2 Colonial era 1.3 Conversion to Christianity 1.4 Colonial policy and its implications 1.5 Political organizations of the Karen 1.6 WWII and its aftermath 1.7 Japanese occupation 1.8 Return of the colonial state 1.9 Burmese independence, 194 1.10 Outbreak of the Karen conflict, 194 Chapter 2: Development of the Karen

In the 1980s, the Karen people began arriving on the Thai-Myanmar border as they fled the ongoing ethno-political conflict in Myanmar. Since then, the refugee situation in the border region has become one of the most protracted refugee situations in the world. As there was no clear indication of if and/or when the Karen people could return to the Kayin State, their home state in Myanmar, they began to resettle in third countries. In the mid-2000s, Canada began resettling Karen refugees from the Thai-Myanmar border across the country. This qualitative study explores the experiences of Karen refugee women living on the Thai-Myanmar border and in Canada. The study analyzes how gender impacted the lived experiences of three Karen refugees and their families. This research is concerned with shedding light on the stories, lived experiences, and resiliency of Karen refugee women on the Thai-Myanmar border and in resettling in Canada. Karen women are not simply passive victims of violence and conflict but are actors for change and peace.

The State in Myanmar Institut de recherche sur l'Asie du Sud-Est contemporaine

This study analyses the various types and stages of conflict that have been experienced by diverse groups and generations of Karen over the six decades of armed conflict between the Karen National Union (KNU) and successive Burmese governments. Instead of focusing on those who are internally displaced, those in the refugee camps on the Thai-Burma border or living abroad, or those in the KNU, it places particular emphasis on the "other" Karen, or the majority segment of the Karen population living inside Burma, a population that has hitherto received little scholarly and journalistic attention. It also assesses the Karen people's varied attitudes toward a number of political organizations that claim to represent their interests, toward successive Burmese military regimes, and toward the political issues that led to the

original divide between "accommodators" and "rebels." This study argues that the lifestyles and strategies that the Karens have pursued are diverse and not confined to armed resistance. Acknowledging these multiple voices will not only shed light upon the many positive features of ethnic interactions, including harmonious communal relationships and significant attempts to promote peace and stability by encouraging "normal" activities and routines in both peaceful and war-torn areas; it will also help to identify policy recommendations for future ceasefire negotiations and a possible long-term political settlement within the context of a militarized Burma.

Abuses Against Peasant Farmers in Burma Faber & Faber

This open access book focuses on the Salween River, shared by China, Myanmar, and Thailand, that is increasingly at the heart of pressing regional development debates. The basin supports the livelihoods of over 10 million people, and within it there is great socio-economic, cultural and political diversity. The basin is witnessing intensifying dynamics of resource extraction, alongside large dam construction, conservation and development intervention, that is unfolding within a complex terrain of local, national and transnational governance. With a focus on the contested politics of water and associated resources in the Salween basin, this book offers a collection of empirical case studies that highlights local knowledge and perspectives. Given the paucity of grounded social science studies in this contested basin, this book provides conceptual insights at the intersection of resource governance, development, and politics of knowledge relevant to researchers, policy-makers and practitioners at a time when rapid change is underway. - Fills a significant knowledge gap on a major river in Southeast Asia, with empirical and conceptual contributions - Inter-disciplinary perspective and by a range of writers, including academics, policy-makers and civil society researchers, the majority from within Southeast Asia - New policy insights on a river at the cross-roads of a major political and development transition *Factors Associated with Delivery by Skilled Birth Attendant Among Mother of Children Under One Year of Age in Rural Area, Kawkaeik District, Kayin State, Myanmar* Institute of Southeast Asian Studies Across the world states are seeking out new and secure supplies of energy but this search is manifesting itself most visibly in Asia where rapid industrialisation in states such as China and India is fomenting a

frantic scramble for energy resources. Due to entrenched societal inequities and widespread authoritarian governance, however, the pursuit of national energy security through transnational energy projects has resulted in devastating impacts on the human and environmental security of local populations. These effects are particularly evident in both Thailand and Myanmar (Burma), which, located at the crossroads of Asia, are increasingly engaged in the cross-border energy trade. Based on extensive fieldwork and theoretical analysis this ground-breaking book proposes a new critical approach to energy and environmental security and explores the important role that both local and transnational environmental movements are playing, in the absence of effective and democratic governments, in providing 'activist environmental governance' for energy projects throughout the region. By comparing the nature of this activism under two very different political regimes it delivers crucial theoretical insights with both academic and policy implications for the sustainable and equitable development of the South's natural resources.

In this book, France's leading medical anthropologist takes on one of the most tragic stories of the global AIDS crisis—the failure of the ANC government to stem the tide of the AIDS epidemic in South Africa. Didier Fassin traces the deep roots of the AIDS crisis to apartheid and, before that, to the colonial period. One person in ten is infected with HIV in South Africa, and President Thabo Mbeki has initiated a global controversy by funding questionable medical research, casting doubt on the benefits of preventing mother-to-child transmission, and embracing dissidents who challenge the viral theory of AIDS. Fassin contextualizes Mbeki's position by sensitively exploring issues of race and genocide that surround this controversy. Basing his discussion on vivid ethnographical data collected in the townships of Johannesburg, he passionately demonstrates that the unprecedented epidemiological crisis in South Africa is a demographic catastrophe as well as a human tragedy, one that cannot be understood without reference to the social history of the country, in particular to institutionalized racial inequality as the fundamental principle of government during the past century. *The Karen Revolution in Burma* Cornell University Press

aggregated for the purpose of Sgaw Karen (Paganyaw) language acquisition. These pamphlets range from simple phonological lessons and glossaries to increasingly advanced primer passages and conversational phrases. The collection includes contemporary graded (1st-7th) readers used in primary school education in Hpa'An, Kayin State, Myanmar. The collection includes language acquisition resources developed by the Karen Baptist Theological Seminary in Yangon, Myanmar.

Preparatory Survey Report on the Project for Provision of Road Construction and Maintenance Equipment in Kayin State in Republic of the Union of Myanmar Lexington Books

The International Encyclopedia of Linguistics, 2nd Edition encompasses the full range of the contemporary field of linguistics, including historical, comparative, formal, mathematical, functional, and philosophical linguistics with special attention given to interrelations within branches of linguistics and to relations of linguistics with other disciplines. Areas of intersection with the social and behavioral sciences--ethnolinguistics, sociolinguistics, psycholinguistics, and behavioral linguistics--receive major coverage, along with interdisciplinary work in language and literature, mathematical linguistics, computational linguistics, and applied linguistics. Longer entries in the International Encyclopedia of Linguistics, ranging up to four thousand words, survey the major fields of study--for example, anthropological linguistics, history of linguistics, semantics, and phonetics. Shorter entries treat specific topics within these fields, such as code switching, sound symbolism, and syntactic features. Other short entries define and discuss technical terms used within the various subfields or provide sketches of the careers of important scholars in the history of linguistics, such as Leonard Bloomfield, Roman Jakobson, and Edward Sapir. A major portion of the work is its extensive coverage of languages and language families. From those as familiar as English, Japanese, and the Romance languages to Hittite, Yoruba, and Nahuatl, all corners of the world receive treatment. Languages that are the subject of independent entries are analyzed in terms of their phonology, grammatical features, syntax, and writing systems. Lists attached to each article on a language group or family enumerate all languages, extinct or still spoken, within that group and provide detailed information on the number of known

speakers, geographical range, and degree of intelligibility with other languages in the group. In this way, virtually every known language receives coverage. For ease of reference and to aid research, the articles are alphabetically arranged, each signed by the contributor, supported by up-to-date bibliographies, line drawings, maps, tables, and diagrams, and readily accessible via a system of cross-references and a detailed index and synoptic outline. Authoritative, comprehensive, and innovative, the 2nd edition of the International Encyclopedia of Linguistics will be an indispensable addition to personal, public, academic, and research libraries and will introduce a new generation of readers to the complexities and concerns of this field of study.

Restless Souls Springer

The political regime in Myanmar used to be a seemingly monopolistic structure where power was exclusively in the Army's hands. A marginal external influence was exercised by businessmen with close ties to the regime while the country is also exposed to the influence of powerful regional states. Since the General Elections in November 2010, the establishment of the Republic of the Union of Myanmar with a parliamentary democracy (which remains under some control of the Army, but with notable civilian representation) is the most noticeable change in Myanmar politics for decades as it may shift the state away from the Army monopoly, although concrete changes remain to be demonstrated.

Burma is currently ruled by a harsh

dictatorship unmoved by Western activists and sanctions. It is also the sight of the longest-running conflict in the world. Drawing both on his own family's stories and his years of hands-on political experience working with the United Nations, Thant Myint-U has written an illuminating account of how Burma's rich past informs its violent present, and of how the world might transform the country's future. In *The River of Lost Footsteps*, Thant Myint-U tells the story of modern Burma, in part through a telling of his own family's history, in an interwoven narrative that is by turns lyrical, dramatic, and appalling. His maternal grandfather, U Thant, rose from being the schoolmaster of a small town in the Irrawaddy Delta to become the UN secretary-general in the 1960s. And on his father's side, the author is descended from a long line of courtiers who served at Burma's Court of Ava for nearly two centuries. Through their stories and others, he portrays Burma's rise and decline in the modern world, from the time of Portuguese pirates and renegade Mughal princes through the decades of British colonialism, the devastation of World War II, a sixty-year civil war that continues today, military repression and the emergence of Nobel Prize laureate Aung San Suu Kyi. *The River of Lost Footsteps* is a work both personal and global, a distinctive contribution that makes Burma accessible and enthralling. Thant Myint-U is the author of *Where China Meets India* and has written articles for the *New York Times*, the *Washington Post* and the *New Statesman*.

Understanding Karen Women's Experiences in Refugee Camps on the Thai-Myanmar Border and in Canada Lonely Planet

This book is the first study to offer insight into non-armed, non-insurgent members of ethnic groups that are associated with well-known armed organizations. It analyzes the nature of the relationships between the "quiet" minorities and their "rebel" counterparts and assesses how these intra-ethnic differences and divisions affect the armed resistance movement, negotiation with state authorities, conflict resolution, and

political reform. This field-based study of the Karen in Burma also provides theoretical and policy implications for other ethnically polarized countries. *The "other" Karen in Myanmar* Southeast Asia Program Publications

Winning by Process asks why the peace process stalled in the decade from 2011 to 2021 despite a liberalizing regime, a national ceasefire agreement, and a multilateral peace dialogue between the state and ethnic minorities. Winning by Process argues that stalled conflicts are more than pauses or stalemates. "Winning by process," as opposed to winning by war or agreement, represents the state's ability to gain advantage by manipulating the rules of negotiation, bargaining process, and sites of power and resources. In Myanmar, five such strategies allowed the state to gain through process: locking in, sequencing, layering, outflanking, and outgunning. The Myanmar case shows how process can shift the balance of power in negotiations intended to bring an end to civil war. During the last decade, the Myanmar state and military controlled the process, neutralized ethnic minority groups, and continued to impose their vision of a centralized state even as they appeared to support federalism. *The Politics of Silence* Educreation Publishing

Almost forty years after returning to the United States from Vietnam, journalist Thomas Bleming decides to journey to Southeast Asia to report on a little known but long-lasting war that has been raging between the Myanmar military and the Karen people since 1949. Bleming expects to be in and out in a matter of weeks, as he only wants to take some photos for a book that he's writing on the Karen National Liberation Army. But once inside rebel-occupied Myanmar, he finds himself drawn into the struggle waged by the indigenous people. Bleming takes up arms and volunteers to fight the Karen people's enemy, The Burmese Army. What started off as a trip to satisfy his curiosity ends with Bleming fighting for his life and the freedom of the Karen people. Along the way, he makes new friends and earns a top post in the Karen National Union, eventually becoming a full-fledged

member of the Karen National Liberation Army. Journey to places where no Westerner has been before and learn about Bleming's mission to help an oppressed people that have been at war for nearly sixty years in War in Karen Country.

Winning by Process

Rebel Politics analyzes the changing dynamics of the civil war in Myanmar, one of the most entrenched armed conflicts in the world. Since 2011, a national peace process has gone hand-in-hand with escalating ethnic conflict. The Karen National Union (KNU), previously known for its uncompromising stance against the central government of Myanmar, became a leader in the peace process after it signed a ceasefire in 2012. Meanwhile, the Kachin Independence Organization (KIO) returned to the trenches in 2011 after its own seventeen-year-long ceasefire broke down. To understand these puzzling changes, Brenner conducted ethnographic fieldwork among the KNU and KIO, analyzing the relations between rebel leaders, their rank-and-file, and local communities in the context of wider political and geopolitical transformations. Drawing on Political Sociology, Rebel Politics explains how revolutionary elites capture and lose legitimacy within their own movements and how these internal contestations drive the strategies of rebellion in unforeseen ways. Brenner presents a novel perspective that contributes to our understanding of contemporary politics in Southeast Asia, and to the study of conflict, peace and security, by highlighting the hidden social dynamics and everyday practices of political violence, ethnic conflict, rebel governance and borderland politics.
