"It is not what you know, but who you know that counts." This old cliché is as true today as it was when it was first uttered. According to a recent survey conducted by Drake Beam Morin, Inc. (a large outplacement organization), networking fills 70 percent of professional positions. Networking for a job is the best way to tap into the unpublished job market. NETLIVING 101, Networking Life's Journey reaches beyond the job market into all aspects of life from the womb to the tomb. Hence the word networking is replaced by my newly coined word netliving . There is currently no book, as indicated by reviewing Books in Print ,that shows people how to take advantage of networking techniques used in job hunting to enhance other facets of their lives.

NETLIVING 101, Networking Life's Journey fills that gap by providing all the tools and information readers need to establish networks and have more enjoyable and successful lives. One of the reasons for choosing the title NETLIVING 101, Networking Life's Journey was because, to the best of my knowledge, no college or university offers a course as part of a curriculum on the subject. In earlier, simpler times when most of the world's population lived in small villages where everyone knew their neighbor, there was no need to build networks for they were already in place. The local church or pub was usually the hub of the network. With the complexity of today's society it has become necessary to make a concerted effort to establish support networks in order to be successful and happy. In this self-help book, ideas, examples and suggestions for netliving are developed through short vignettes based on the lives of real people. Names and places will be changed to protect the innocent. NETLIVING 101, Networking Life's Journey is written using the concept known as fiction. Essentially, fiction refers to the inclusion of certain details which, although they may not have occurred exactly as described in point of fact, give the reader a clear image of the scene in his or her imagination. Rather than telling the reader what netliving is all about, this book demonstrates through the words and actions of the characters. Chapter One introduces the two key characters that appear throughout the book. Roberta and Richard are used alternately, from chapter to chapter, to provide different perspectives. The fabric of friendships is woven through the stages of life and applied to various life experiences from overcoming the fear of public speaking to preparing for retirement. Netliving 101, Networking Life's Journey is designed for individuals who are career oriented, sophisticated, and thoughtful. Most people are concerned about their future and are taking steps to afford themselves successful, happy and prosperous "mature years." **The Essential Elements of Public Speaking** Springer What is Public Speaking? How can you master this art and how can you overcome your fear of speaking in public? There are specific careers where you are expected to have good communication skills. Sometimes, it is a part of an individual's job to talk and convince people. If you are a lawyer, a politician, a pastor, a sales representative or a journalist, this skill is a must-have for you. However, the truth is, good communication skills

are a must-have for everybody. In the real world, you cannot go through your day without communicating. Not many people are comfortable with the thought of public speaking. That is why not so many people are good at it. But if you become a good public speaker, you will come to realize that it can give you a lot of advantages. Having the ability to talk in front of many people and convince them gives you some sort of authority and power. If you become a good public speaker, you will be able to deliver great speeches and move a whole crowd. This book contains proven steps and strategies on how to start public speaking as a beginner. This book will help you get started and provide you with the basic information you need to start public speaking. This book also contains steps on how to overcome your fear of public speaking, and other important information you need to know about delivering a public speech. After downloading this book you will learn... Chapter 1. Getting Started Chapter 2. Overcome Your Fear Chapter 3. Delivering Your Speech Chapter 4. The Speaker and the Audience Chapter 5. Getting Deeper In the Parts of Your Speech Chapter 5. Proper Use of Language Chapter 6. Speech Delivery And Much, much more!

This book is a contribution to the growing body of research in variational pragmatics and in postcolonial pragmatics, two emergent frameworks in cross-cultural pragmatics. Variational pragmatics studies pragmatic phenomena in regional varieties of the same language from a comparative perspective. Postcolonial pragmatics examines patterns of pragmatic phenomena in

postcolonial spaces. The study focuses on the realization patterns of compliments and compliment responses and politeness strategies used in performing both speech acts in Cameroon French and in Canadian French. (Series: Romanistische Linguistik / Romance Linguistics - Vol. 10)

At long last here is a textbook for the basic public speaking course--one that integrates a Christian worldview with up-to-date scholarship in the field of communication. *Proclamation!* covers the standard speech types: informative speech, persuasive speech, and ceremonial speech. In addition, Blake J. Neff recognizes that Christians need to know how to deliver an edifying speech and a personal testimony speech. Neff acknowledges that one of the reasons to study public address at the university level is that God has commanded His people to "always be prepared to give an account (1 Peter 3:15).

*Proclamation!* prepares Christians to speak not only as one to many but also as members of interpersonal or small groups. Christian teachers of public speaking will appreciate the assistance this book offers toward integrating faith with learning. Students will applaud the practical and readable approaches found in *Proclamation!*
