BLACKBURN DUNCAN

The Other End of the Line Simon and Schuster

Are you ready to rise to the challenge of increasing the metabolic rate and success of your business? The Other End of the Telescope is a high speed gallop through the absurdities and challenges of getting things done in large companies, and the inherent contradictions in leadership and organisational behaviours that prevent businesses from realising their potential and achieving greater success. In this collection of thought provoking essays, Ian Russell draws on more than 25 years' experience of leading and working in large organisations around the world to distil the key themes and challenges confronting big business today. The book tackles key topics such as organisational cholesterol, the loneliness of leadership, human capital strategy failures, performance destroying head offices and the myths of talent scarcity and the so-called Fourth Industrial Revolution, among others. Each essay pairs a deep understanding of the real world and lessons learned the hard way, with powerful and pragmatic insights on how big business can change the way in which it does things. Contributions from other notable thought leaders Valter Adão, Richard Mulholland, Happy Ntshingila and Rapelang Rabana add unique voices and insights to Ian's vibrant and straightforward views. Together they are exactly what is needed to jolt businesses and their leaders into doing things more successfully and thoughtfully. The lightness of Ian's style makes this a highly readable

book, but it does not dilute the impact of his incisive observations and insights. Passionate, irreverent and challenging, The Other End of the Telescope will make you think deeply about your business and your career, and your role in both. You'll never think the same way again.

The Other End of the Stethoscope HarperCollins UK

The Grangers return in The Other End of the Farm. Join them as they embrace longtime friend Jason Connelly as he finds himself becoming just another member of their slightly dysfunctional world. Jason had grown up an only child raised by his father, the police chief of a small close-knit community in Liberty Creek, Virginia. The past years found both men somewhat lonely and wondering what their lives held for them. When Jason takes the first big step and marries the mother of his toddler son, things start to change. Jason moves out, leaving his father, Gary Connelly, alone for the first time in forty-three years. As Jason begins to make changes in his life, he finds that he wasn't really prepared for what those changes meant for him. He takes on the job of his dreams, working for the Granger Horse Farm. This job, and becoming a full-time husband and father, presents Jason with things he wasn't expecting. His relationship with the Grangers deepens, putting him in the middle of some unbelievable circumstances. Meanwhile, his father is learning to live again at sixty-one years old. With the Grangers and their loved ones, there is no telling what will happen next! One thing is always for certain though whatever happens, they'll all get through it together.

A love story with a difference - an unforgettable tale of life, loss and making each day count in the INTERNATIONAL NO. 1 BESTSELLING book of TIKTOK fame, clocking up 80 million views and counting! The First to Die at the End, the prequel to They Both Die at the End, is now available to pre-order in hardback, coming October 2022. On September 5th, a little after midnight, Death-Cast calls Mateo Torrez and Rufus Emeterio to give them some bad news: they're going to die today. Mateo and Rufus are total strangers, but, for different reasons, they're both looking to make a new friend on their End Day. The good news: there's an app for that. It's called the Last Friend, and through it, Rufus and Mateo are about to meet up for one last great adventure - to live a lifetime in a single day. Another beautiful, heartbreaking and life-affirming book from the brilliant Adam Silvera, author of More Happy Than Not, History Is All You Left Me, What If It's Us, Here's To Us and the Infinity Cycle series. PRAISE FOR ADAM SILVERA: 'There isn't a teenager alive who won't find their heart described perfectly on these pages.' Patrick Ness, author of The Knife of Never Letting Go 'Adam Silvera is a master at capturing the infinite small heartbreaks of love and loss and grief.' Nicola Yoon, author of Everything, Everything 'A phenomenal talent.' Juno Dawson, author of Clean and Wonderland 'Bold and haunting.' Lauren Oliver, author of Delirium

Both a delightful murder mystery and a comic novel, fired by love and obsession and filled with memorable characters, Hunting Season is a captivating novel from Andrea Camilleri, the bestselling author of the Inspector Montalbano series. Sicily, 1880. When a stranger arrives in Vigàta, the town's inhabitants immediately become unsettled. It seems the young man, Fofo, is the son of a local peasant legendary for his home-grown medicines; a man who was murdered many years before. Fofo opens his own pharmacy in Vigàta and his remedies are sought by many. But he soon finds himself entangled with the local nobility: Don Filippo a philandering marchese set on producing a new heir, his long-suffering wife Donna Matilde, his eccentric elderly father Don Federico, his son Federico and beautiful daughter Ntontò above all. But it won't be long before death visits Vigàta and the town and its most noble family will never be the same again . . . 'For sunny views, explosive characters and a snappy plot constructed with great farcical ingenuity, the writer you want is Andrea Camilleri' - New York Times

The Other End of the Rainbow Ballantine Books

Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

The Other End of the Farm D A W Books, Incorporated

A stirring story of love discovered in unexpected places, growing us beyond who we thought we were—or imagined we could become Summer, 1981—Following the death of her father, Becky Klein, an adventurous, naive young woman from the Midwest, sets out for the Middle East, in search of her Jewish roots. She discovers something more, in a Gaza garden near a refugee camp by the sea. There she befriends the garden’s owner, a Palestinian activist who has served time in Israeli jails. As their relationship grows, Rebecca finds herself drawn into a story of roots unlike the one she had imagined. The West Bank, Cairo, Yarmouk, Benghazi—before long, their romance careens across a region in flames, child in tow, wrestling with conflicting maps of love, family and home. Moving, yet brimming with flashes of humor, Alison Glick’s tangle with the search for purpose and commitment yields a bracing, radiant story for these times.

The Other End of the Line Pan Macmillan

Through the instrument of his fictional narrator, the extremophyle prokaryote *Thermotoga maritima*, the author tells the story of a convention of microbes convened for the purpose of rebutting human assigned taxonomic names. Disgruntled that humans often name them after some scientist of the place of their discovery, the microbes discuss their biology, function, adaptation to environments, defense against human attacks, and other activities in order to suggest that they should be named after their attributes. A final session invites entries for a renaming of *homo sapiens* that reflects the point of view of the microbes. Annotation copyrighted by Book News, Inc., Portland, OR.

Galileo’s Daughter: A Drama of Science, Faith and Love AuthorHouse

One of Sidney Sheldon’s most popular and bestselling titles, published in ebook format for a new generation of fans.

The Other End of the Continent Balboa Press

From the international best-selling author of *Longitude*, *Galileo’s Daughter* is the fascinating story of the relationship between the great Italian scientist Galileo and his daughter, Virginia.

The Farmer’s Magazine Colchis Books

A new book which expresses the belief that the events of the whole of History can be intimately related to the sublime words of the Prophets of the Old and New Testaments. Addresses questions as: - Is God in charge of History?- Did the Prophets speak of our day?- Are the promises of the Fathers

still valid?- Whatever happened to the people of Israel who never became Jews?- At the time of Christ, who and where were your ancestors?- How does America fit into the total scheme of things?- Are we in the last days?- Do we escape the world crisis which is just ahead of us?

The Other End of the Line Jonathan Ball Publishers

“A thrill-packed” blend of science fiction and apocalyptic thriller from the veteran horror writer and author of *Halo: Broken Circle* (Metro Silicon Valley). Judgment Day has arrived, and it’s stranger than anyone could have predicted. . . . Jim Swift, a reporter for the *Sacramento Bee*, is determined to get to the bottom of the recent bizarre global occurrences that seem to be more in the realm of outlandish conspiracy theories than real-life facts. People who once trafficked in slaves, war, cruelty, and death are suddenly experiencing strange visions and reexamining their lives. But the inexplicable rehabilitation of humanity’s worst evildoers is only the beginning. As Jim sets out on a frantic search for his lost daughter, he must traverse a world reduced to the chaos of fear and uncertainty—for the end of everything we’ve ever known will be at hand once the Adjusters arrive from the stars. *The Other End*, John Shirley’s brilliant and biting apocalyptic thriller, is the veteran author’s answer to the bestselling *Left Behind* novels. A magnificent amalgam of science fiction, horror, satire, and heart-pounding adventure, it’s a stunning and thought-provoking tale of righteous redemption in a dystopian near-future.

The Burrum Coal Field Independently Published

A group of aliens known as the Beloved Leaders send a warning to Earth that the planet is about to be destroyed by a hostile race known as the Horch, but when Dan Dannerman, a spy for the U.S. government, is taken prisoner by the Beloveds, he learns that the supposed good guys are really the enemy.

Studies in Televised Instruction Llumina Press

What if you could significantly improve your physical and mental health by taking a simple step thats easy, rewarding, and fun? Dr. Milena Penkova says you can do that and more by owning a dog and yet people continue to invest time and money in costly treatments before even considering a furry friend. Dogs can stave off diseases and certain cancers, erase pain, and ease anxiety, depression, allergies, diabetes, and cardiovascular disorders. Over the long term, they can also reduce the burden of dementia, epilepsy, stroke, Parkinsons disease, schizophrenia and autism. This guidebook explains the scientifically proven benefits of dogs, and youll learn how dogs: change the human brain so it reacts and thinks differently; improve the immune system to make you more resilient than dog deprived individuals; boost and invigorate the human spirit and secure happiness; promote a life of longevity and healthiness. Stop looking for fancy remedies to physical and mental problems, and start looking for a dog wagging its tail. Tap into a natural method to survive and thrive by learning about the fascinating connections between Dogs & Human Health.

The Other End of the Telescope Pan Macmillan

In this book, I hope to enlighten readers about the physician's life, and how the current medical climate has affected everything we do, every decision we make and our career satisfaction. The deterioration of the doctor-patient relationship has gotten worse and worse, fraught with mistrust from both ends of the stethoscope. If we are to turn the current situation around, we must understand the issues. My purpose is to inform and educate people about the life of a doctor, the rigorous training involved, the daily routine of medical practice and the difficulties of reconciling the business of medicine with our ultimate goal of healing. My emphasis is on how the health care and malpractice crises affect physicians, and on how the doctor-patient relationship has suffered. Through a combination of personal reflections, surveys of physicians, statistical references and examples, I paint a picture of the physician that is more reality based than the TV shows, yet just as dramatic. This book attempts to portray physicians as people, not commodities and not technical robots, not the ultra rich and certainly not the heartless. I felt that I had something to contribute to the health care literature, especially in light of the changes coming as a result of the Patient Protection and Affordable Care Act of 2010. While there is promise of improving access to health care for patients, the burdens placed on physicians and their attitudes toward this legislation need to be expressed. We need to understand the issues from the physicians perspective, from the other end of the stethoscope. My mission is to convey the importance for all people to pay attention to the medical profession, to understand their physicians struggles and rewards, and to assist in salvaging the relationship that is suffering between doctor and patient. Suggestions for possible solutions to the ongoing problems facing doctors in this country are presented. I hope this book helps to promote better communication and transparency in the medical field. My advice to those of you considering a career in medicine or surgery; Go into it with open eyes and open hearts. For the rest of you, humanity, please remember that physicians too are only human.

Hunting Season Pan Macmillan

James Joyce meets Ray Bradbury in David Gardiner's second collection of tales wrapped in the imaginings of a Cassandra/Wandering Jew-type sage whose words open doorways into landscapes of the imagination, both bright and profoundly dark. These are short stories in the full-blooded sense, with beginnings, middles and ends. Binnacle Press, in naming it as Book of the Month, said of the first *Rainbow Man* collection: You pick up this book with its charming exterior thinking you are going to read a collection of equally charming short stories, seasoned perhaps with a little grit to raise it above the tame, but what you actually get are jawdropping vignettes of the sort of lives only a writer of David's calibre could relate with such vivid and at times disturbing realism, and all this whilst at the same time managing to avoiding the usual, the jaded and the hackneyed to ensnare your attention. Nothing is as it seems and the more mundane the surface, the more layers there appear to be; we are talking about a true literary onion here, multi-layered and quite able to bring tears to your eyes. The Irish Emigrant magazine told us that: ...without exception all twenty-three of the stories, exploring life both familiar and unfamiliar, leave the reader with something to think about, and linger in the mind long after the final page is turned. The present collection is all of the above, and more.

Dogs & Human Health Open Road Media

In Inspector Montalbano's coastal town of Vigata, migrants have been surging in by boat, and all the town's hands are on deck to help the arrivals. At the heart of the scene are the police, on the lookout for the people smugglers responsible, and long night shifts are rendering Inspector Montalbano and his officers exhausted. Then one night, while Montalbano is enduring yet another gruelling stint at the port, a separate crime is committed. Elena, the dressmaker at the town's famous tailor's shop, has been found dead - slaughtered by her own scissors. As Inspector Montalbano finds himself trying to unravel the mystery, he can't help but wonder: what will happen if he keeps tugging on this thread? And what will he find at the end of the

line?
